To whom it may concern,

It is my pleasure to recommend Trang Nguyen's application to your program. Trang took my class EECS 40 (Object-oriented Programming) at Fall 2024, with 79 students enrolled. So, I can comment about her academic performance.

In EECS 40, she got A+ overall. This class consists of 5 homework, 1 mid-term exam, and 1 final exam. It mainly teaches the basics and advanced features of JAVA and how to use it for OOP. The homeworks are all programming assignments, including building GUI applications. She did very well in all homeworks. "A+" grade indicates she has excellent knowledge of JAVA, OOP, and excellent programming skills. She attended most of my lectures in person and discussed with me about various programming issues after class, showing her genuine interests in software development.

In short, I think Trang is an excellent fit to your program. Please let me know if you need any further information from me. I can be reached through phone or email as listed in the beginning of this letter.

Sincerely,

A handwritten signature in black ink, appearing to read "Zhou Li", written in a cursive style.
